

**April 18, 2011**

**To: Township Board Members**

**RE: Disposal of tires, batteries, paint, used oil**

**At the last general township meeting, April 13<sup>th</sup>, public comment asked if anything was in place at the transfer station to accommodate used tires, batteries, paint and used oil. I called J&N Disposal in Cheboygan and spoke with Nathan. At this time, they are not prepared to take these items off the island. I did some research in Cheboygan and there there are places to dispose or recycle these items.**

- **Tires: Manning's tire will accept them but they charge \$3.00 for each tire.**
- **Batteries: Advance Auto Parts will take them at no charge. There is no credit for them.**
- **Paint: If the paint is transformed into a solid state by adding sand, kitty litter or products manufactured to do this, the paint can be put in the island dumpsters.**
- **Used oil: Advance Auto Parts will take at no charge.**

**The disposal of these items seems to rest with each individual on the island. It was suggested to take these items in one's own personal vehicle when going to Cheboygan on Plaunt's ferry.**
