

On around July 20th BBI Harbor will be initiating a "LIFE-JACKET LOANER PROGRAM" at the main harbor at the top of the launching ramp.

The loaner program, in coordination with "BOATUS" will include 3-infant vests, 3-youth vests, 3-childs vests, and 3-adult vests. The programs goal is the no BBI boater leaves the harbor without a proper fitting vest for his/her crew members.

The program will be mainly geared for the weekends, with a sign-out book, and a request for returns by the end of the day.

On around July 20th there will also be grab extenders located at each docking area of the main harbor {including the launch ramp} for use is someone mistakenly falls in the water, or if a boater needs assistance docking his/her vessel.

We hope these changes will make everyones boating safer and more pleasurable.

Thanks

Tom Stevenson
